WELCOME TO MONACO

Monaco : a country focused on success

Few of us think of research in science, medicine, IT, finance and sustainability when we think of Monaco, but it might be time that we did, as Martin Lewis, managing editor of Intellectual Capitals, discovers.

It's easy to think of Monaco as just a playground for the idle rich. But the Principality is like a swan. Above the waterline it is serene, stylish and spectacular. But beneath the surface it is striving hard to maintain its position and steer a new and successful course to an exciting future. The result has enhanced its reputation with developments in key sectors of science, industry and sustainability.

Monaco is a dynamic, competitive and innovative community possessing real knowledge hubs and experts in these sectors.

It is a tiny territory of just two square kilometers packed with the culture and entertainment you would expect but also offering a surprising entrepreneurial spirit and determination to become THE place to meet, live and invest because of the expertise that resides in the business and academic communities.

Beyond the clichés, Monaco guarantees a high level of services and provides expertise in organizing business events. Its facilities can fit to all sizes of events. With its 2 km² territory, the Principality is compact, walking-distance and well known for its safety Mediterranean climate.

Choose Monaco's expertise to make your event a success

SECTORS OF EXCELLENCE

When thinking about the Principality of Monaco, rare are the ones who associate it with scientific research, medicine, information technology, finance and sustainable development. Indeed it is high time to change this perception. This small two square kilometers territory gathers a competitive, innovative and dynamic community of experts around real knowledge hubs.

HEALTH

Monaco is developing a scientific community of world renown. A thriving medical sector may be the last thing you would expect to find in Monaco. But innovation and excellence abounds in the field. In many specialties, the Principality has world-class centers of excellence, thanks to the expertise of the professional staff and the availability of the latest equipment.

NEW INFORMATION AND COMMUNICATION TECHNOLOGIES

Both generating high added value, respectful of the environment and requiring only little space, ICTs have naturally found their place in Monaco. Research and development activities also play a significant role in the economy and contribute to the creation of new wealth, innovation and jobs.

FINANCE

Monaco is a financial center. This activity is one key point in its economy. It is prosperous, recognized at the international level, perfectly regulated, professional and it assures a custom-made service to satisfy the most demanding clientele.

SUSTAINABLE DEVELOPMENT

Since its early days, Monaco has been a committed country which is taken into consideration amongst all the international communities regarding environment problems, protection of the oceans and worldwide sustainable development. The Government and the whole destination work every day more on sustainable development issues.

For more information on our sectors of excellence that make Monaco successful about MICE sector, please consult our "Unexpected Monaco" brochure!

CONVENTION BUREAU

The Monaco Convention Bureau is a division of the Monaco Government Tourist and Convention Authority. Composed of a team of professionals, its mission is to promote the Principality of Monaco to business groups' organizers.

OUR MISSIONS

- **Managing** major convention, congress or exhibition projects
- **One single coordinator** who liaises with all facilities and local contacts
- **Sharing** our expertise, our experience
- **Guiding** the customer through the discovery of the destination
- **Mobilize** all actors to ensure the success of the event

THE TEAM

THEY TRUST US :

Astrid WICKI, Osteology Foundation :

"The symposium was a huge success for us as organisers as we had 2'500 participants but also because everything was near to perfect. We have rarely seen so many smiling faces and received so many positive feedbacks. (...)"

Catherine DECUYPER | CEO, Conference Manager EuroMediCom :

"Choosing the Principality of Monaco as a venue for the Anti-Aging World Congress was one of the keys to its success. Monaco Convention Bureau is a real partner and is keen to offer ongoing help and advice.

Nathalie Grosdidier of IDICE, Organiser of the Luxe Pack :

"Luxe Pack found the Grimaldi Forum to be a very pleasant venue with real character. Also, in the Principality everything is conveniently situated in one place, which is very unusual and is very much appreciated by the participants "

THE "PELAGOS" MARINE SANCTUARY

The Pelagos Sanctuary was created on 25 November 1999 according to an agreement signed in Rome by the Principality of Monaco, Italy and France. This agreement has preserved a space for marine mammals in the Mediterranean. The objective was to protect cetaceans and their habitats from all causes of disturbance: pollution, noise, catch and accidental injury. In this sanctuary, located in the Corso-Liguro-Provençal basin, there are 8 500 macroscopic animal species representing between 4% and 18% of the world's marine species. In order to raise awareness and educate a wide audience, over the years we have attended the organization of several guided tours.

GARDENS IN MONACO

The Principality of Monaco is the second smallest independent state in the world. Established on a territory of 2km², Monaco offers more than 20% of the territory to the green areas. The Exotic Garden, the Princess Grace Rose Garden, the Gardens of Little Africa, the St. Martin Gardens and the Japanese Garden are very well known but Monaco still has many other public and private green spaces. This "Green Heritage" must be protected and many initiatives have emerged to strengthen this action.
